DETAILED ACTION

Response to Amendment

1. Claims 1-17 are now pending in the application under prosecution.

Response to Arguments

2. Applicant's arguments, see remarks pages 7-14, filed 06/07/2007, with respect to the rejection(s) of claim(s) 1-17 have been fully considered and are persuasive.

Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of rules 35 USC 101.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

The claimed invention is directed to non-statutory subject matter.

Claims 1-4 and 13-16 are rejected under 35 U.S.C. 101 because they are directed to non-statutory subject matter.

- a) Claim 1 recites "an information processing system comprising: a module executing steps..." This recites non-statutory subject matter.
- b) Claim 13 requires a program per se as the claim recites "a program of instructions executable by a machine to perform method steps..." this is a

program per se and programs are non-statutory subject matter unless they are embodied in a form of storage.

Allowable Subject Matter

4. Claims 5-12 and 17 are allowed.
